

model::RawModel

```
classDiagram
    class RawModel["model::RawModel"]
    class TexturedModel["model::TexturedModel"]
    TexturedModel ..|> RawModel : rawModel
```

The diagram shows two classes: 'model::RawModel' at the top and 'model::TexturedModel' at the bottom. A dashed purple arrow points from 'model::TexturedModel' to 'model::RawModel', with the label 'rawModel' positioned to the right of the arrow.
